Recent Developments

There are no changes to the strategic position of the Fund.

Related Party Transactions

Pursuant to the amended and restated master management agreement, the Manager is entitled to an annual management fee of 1.3% of the net asset value of Series A shares, 0.8% of the net asset value of Series F shares and 0.4% of the net asset value of Series G shares of the Fund, calculated daily and payable monthly in arrears. For the six-month ended June 30, 2017, the Fund incurred \$22,994 in management fees of which \$5,075 was payable at June 30, 2017.

In order for the Fund to maintain a competitive position with other mutual funds with respect to operating expenses charged to the Fund, AlphaDelta Management Corp. (“AlphaDelta”), an affiliate of Qwest Investment Fund Management Ltd. (the “Manager”), has agreed at its discretion to pay for some of the operating expenses of the Fund. AlphaDelta has absorbed a total of \$46,725 of the operating expenses of the Fund for the six-month period ended June 30, 2017.

⁽¹⁾ Management expense ratio ("MER") is based on total expenses less commissions for the stated period and is expressed as an annualized percentage of daily average net assets during the period. AlphaDelta may, at its discretion and without notice to shareholders, waive or absorb operating expenses. MER includes the waiver or absorption by AlphaDelta of certain operating expenses, while the MER before absorption shows the MER prior to operating expenses being waived or absorbed by AlphaDelta.

⁽²⁾ The portfolio turnover rate indicates how actively the Manager manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all the securities in its portfolio once in the course of the period. The higher a portfolio turnover rate is in a period, the greater the trading costs payable by the Fund in the period, and the greater the chance of an investor receiving taxable capital gain in the period. There is not necessarily a relationship between turnover rate and the performance of a portfolio.

⁽³⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as a percentage of average net assets during the period.

Management Fees

The Manager provides administration and portfolio advisory services to the Fund.

Management fees paid by each series of the Fund are calculated up to the annual percentages, before GST/HST, of the daily net asset value of each series of the Fund. The breakdown of the services received in consideration of the management fees for each series, as a percentage of the management fees, is as follows:

	Management Fees	Breakdown of Services	
		Distribution	Other*
Series A	1.3%	38%	62%
Series F	0.8%	-	100%
Series G	0.4%	-	100%

*Includes all costs related to management, investment advisory services, general administration and profit.

See also “Related Party Transactions” with respect to management fees payable to the Manager in accordance with the master management agreement.

Past Performance

The performance information shown assumes that all distributions made by the Fund were reinvested in additional securities of the investment portfolio. The performance information below does not take into account sales, redemption, distribution or other optional charges that would have reduced returns or performance. Past performance of the investment portfolio does not necessarily indicate its future performance.

Year-by-Year Returns

The charts show the performance of the investment portfolio for the years shown and illustrates how the investment portfolio’s performance has changed from year to year. The charts show, in percentage terms, how an investment made on the first day of each financial year would have grown or decreased by December 31 of that year and also for the six-month period ending June 30, 2017.
